MySQL Community Downloads

Login Now or Sign Up for a free account.

An Oracle Web Account provides you with the following advantages:

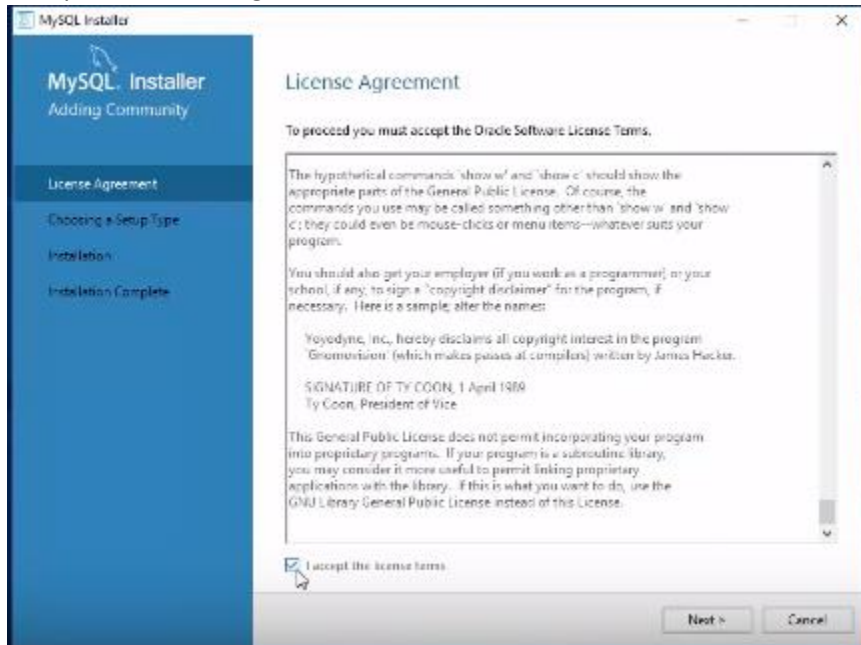

- Fast access to MySQL software downloads
- Download technical White Papers and Presentations
- Post messages in the MySQL Discussion Forums
- Report and track bugs in the MySQL bug system

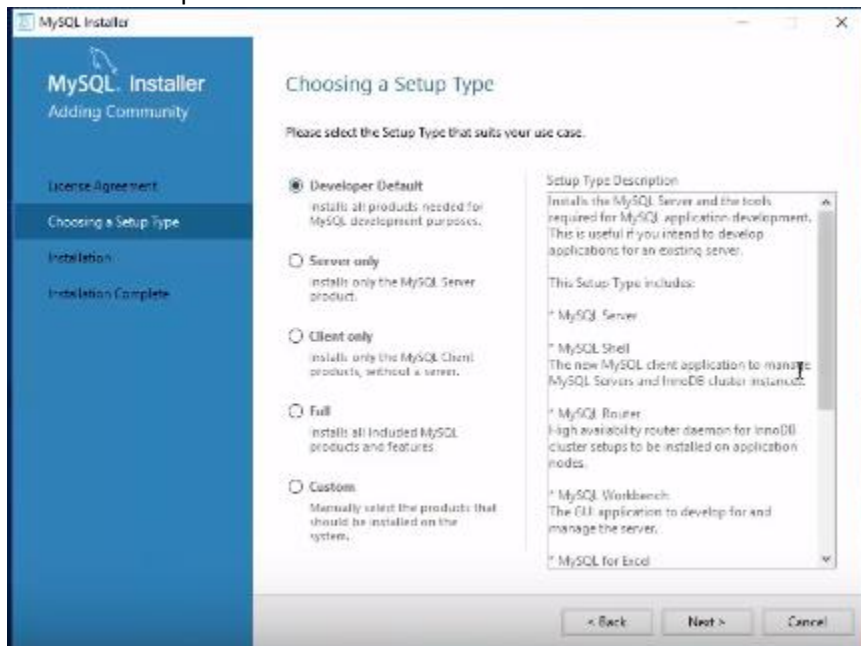

No thanks, just start my download.

Installation steps

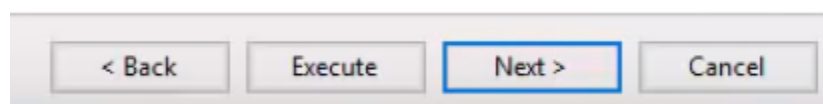

1. Double click on the downloaded installer file.
2. You will get a permission windows, just click on yes/run and continue with the installation.
3. Accept the License agreement and click on “Next”

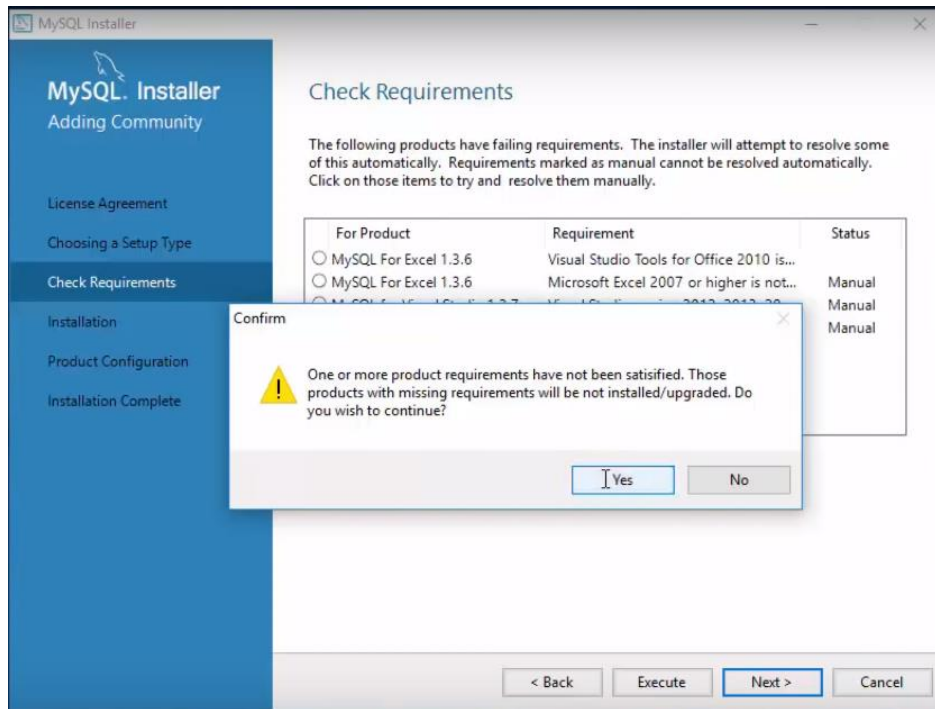

4. Select “Developer Default” and click “Next”

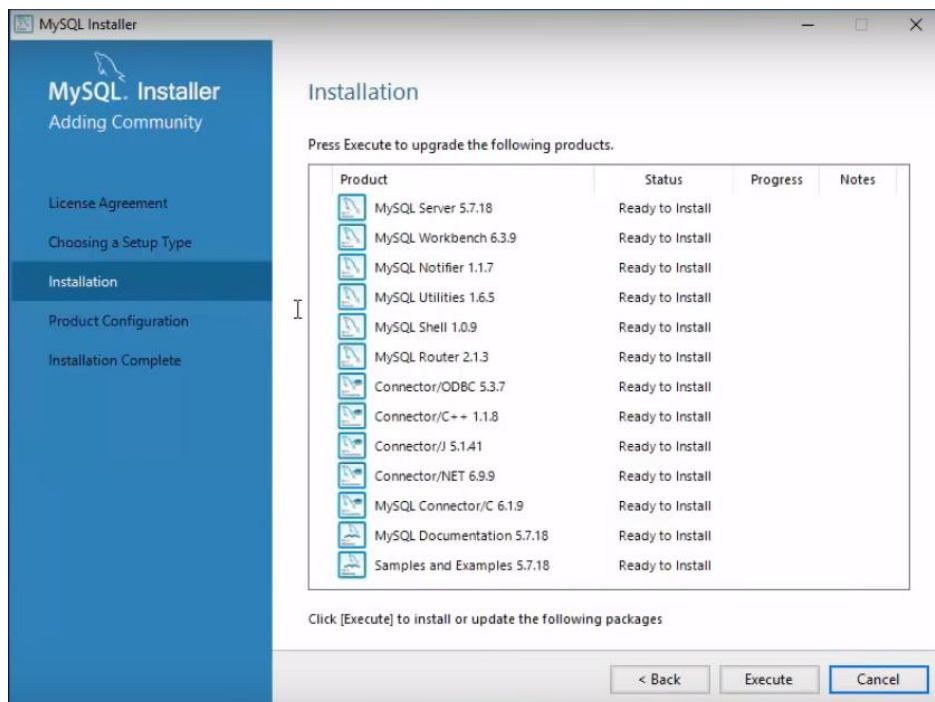

5. Click on “Execute” and wait for adding all the necessary components and click on “Next”

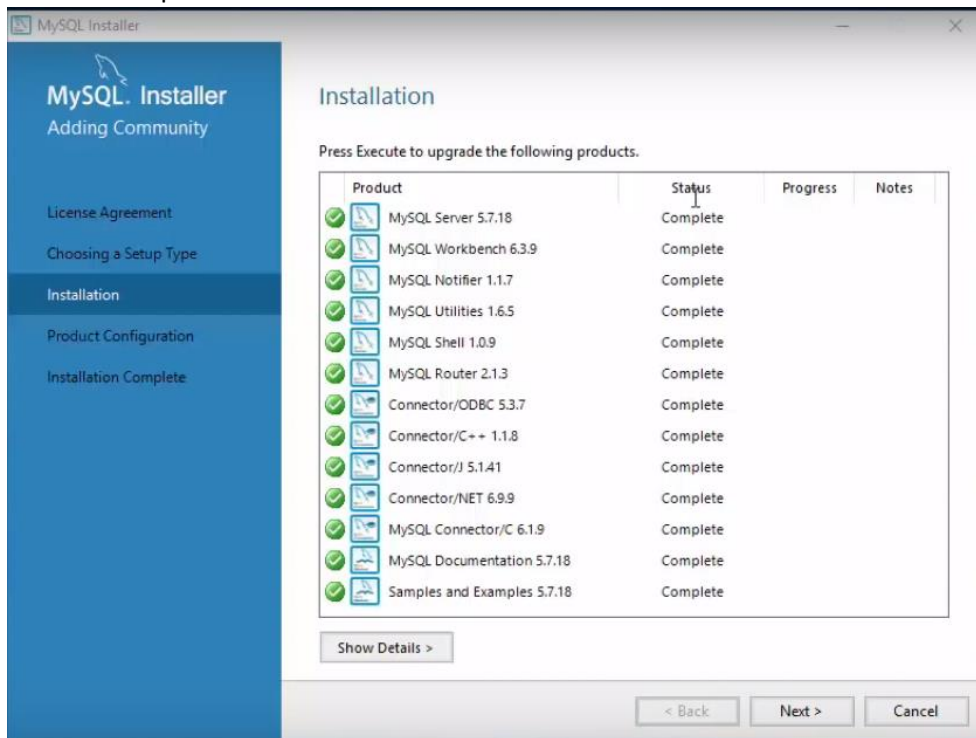

6. Click on “Yes”

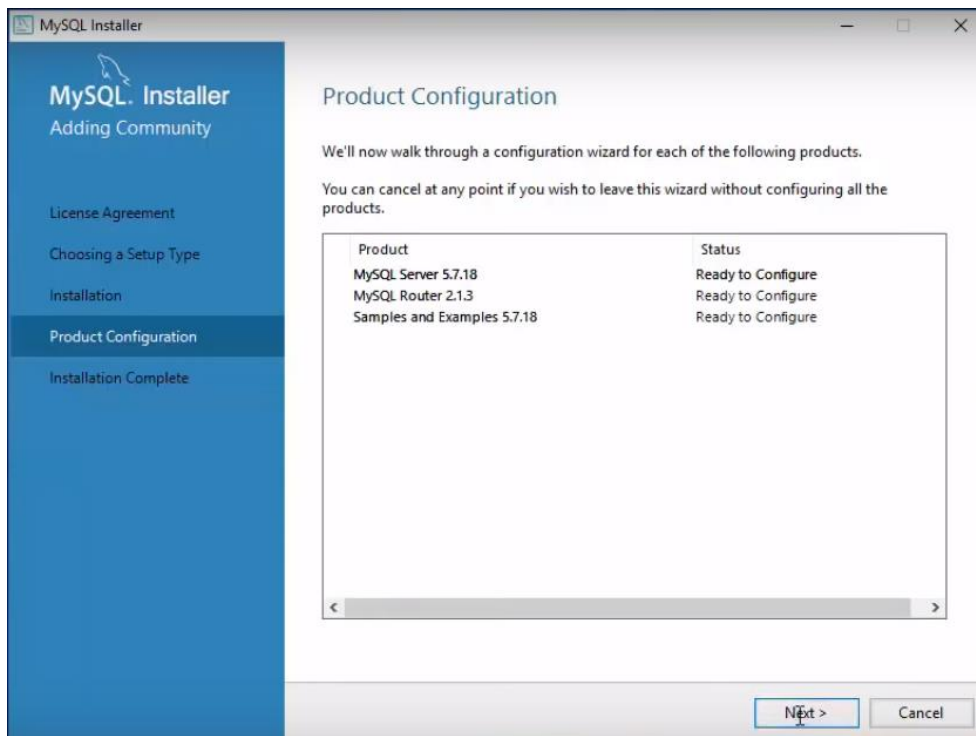

7. Click on “Execute”

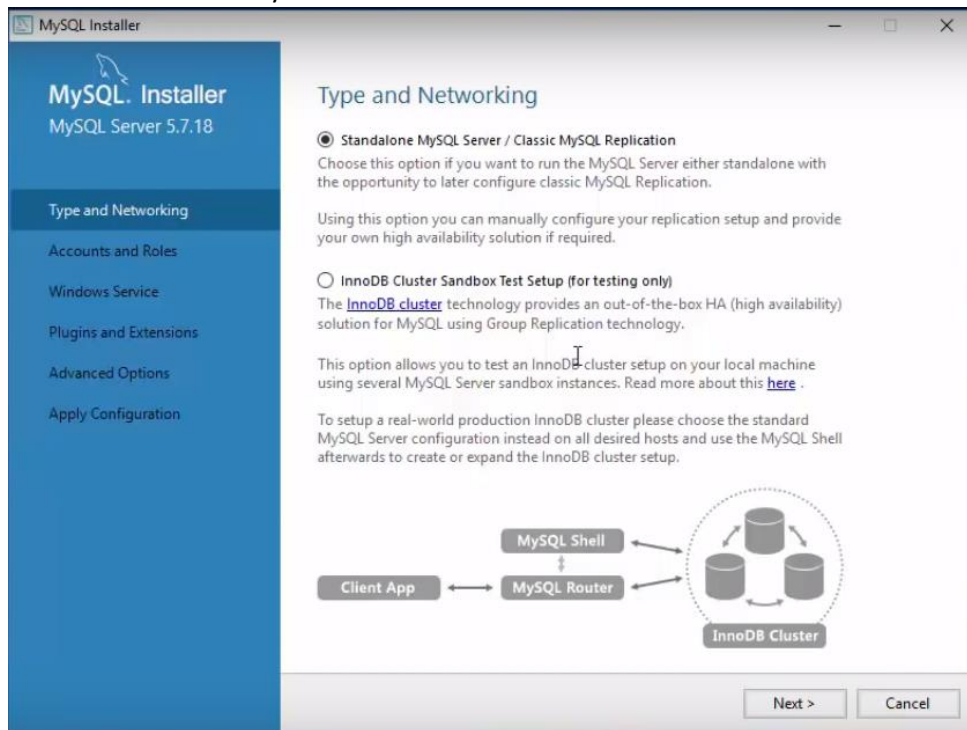

8. Wait to complete the task and click on “Next”

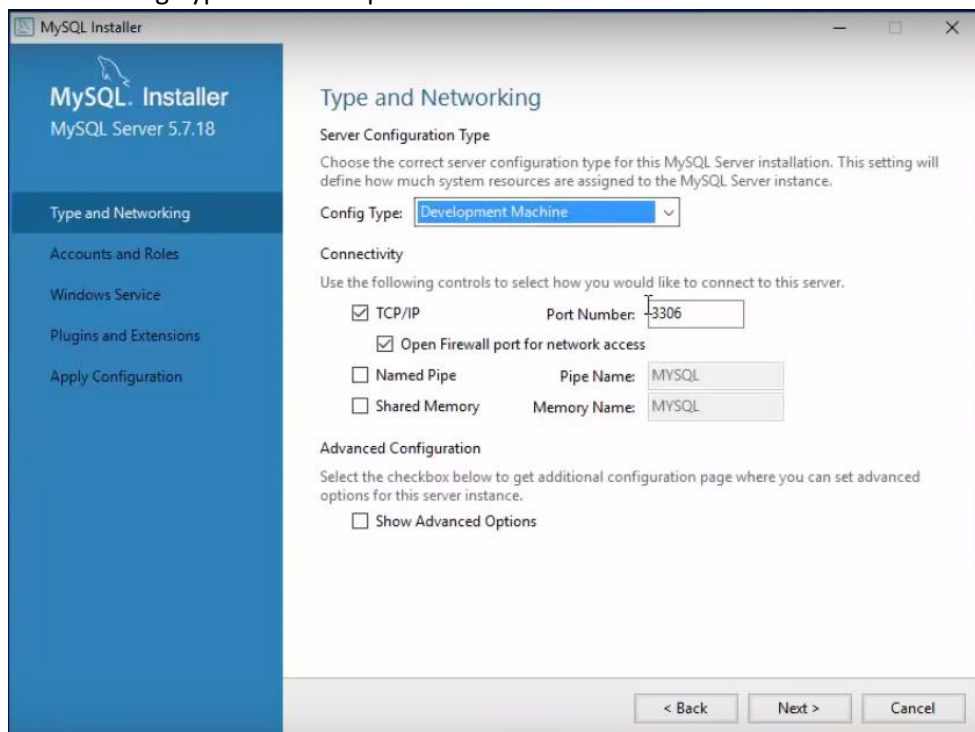

9. Click on “Next”

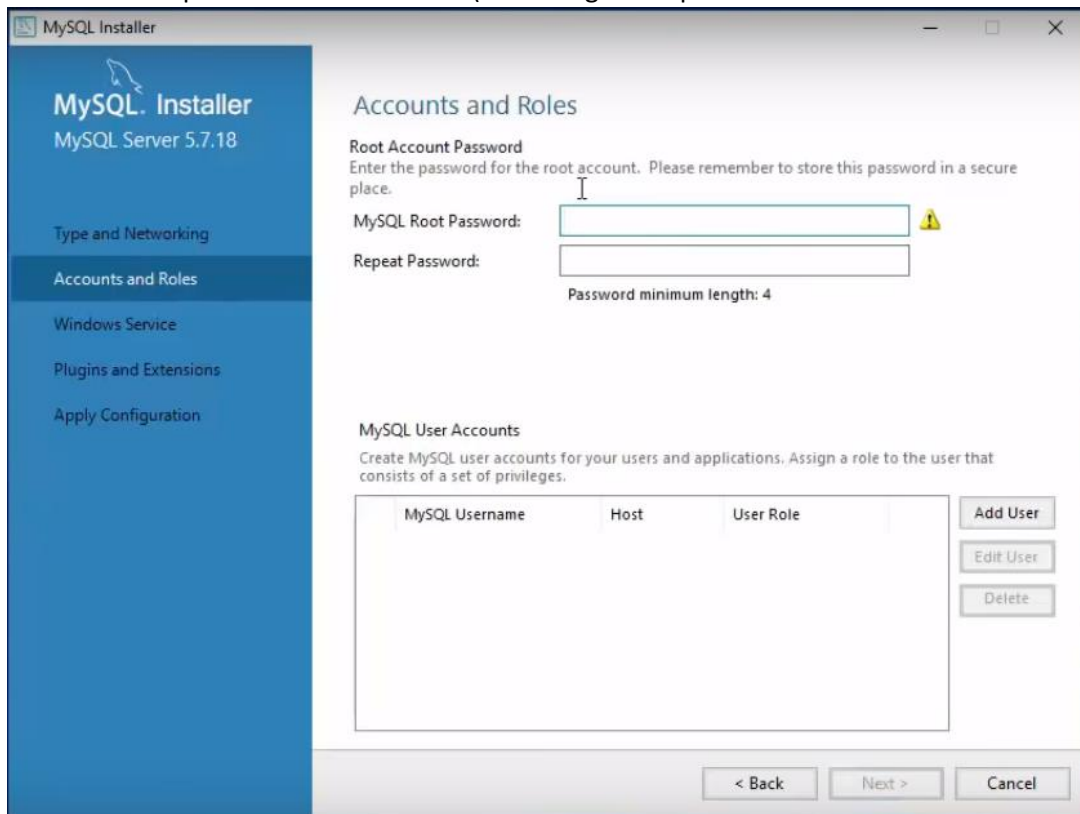

10. Select “standalone MySQL server” and click on “Next”

11. Select Config Type as “Development Machine” and click on “Next”

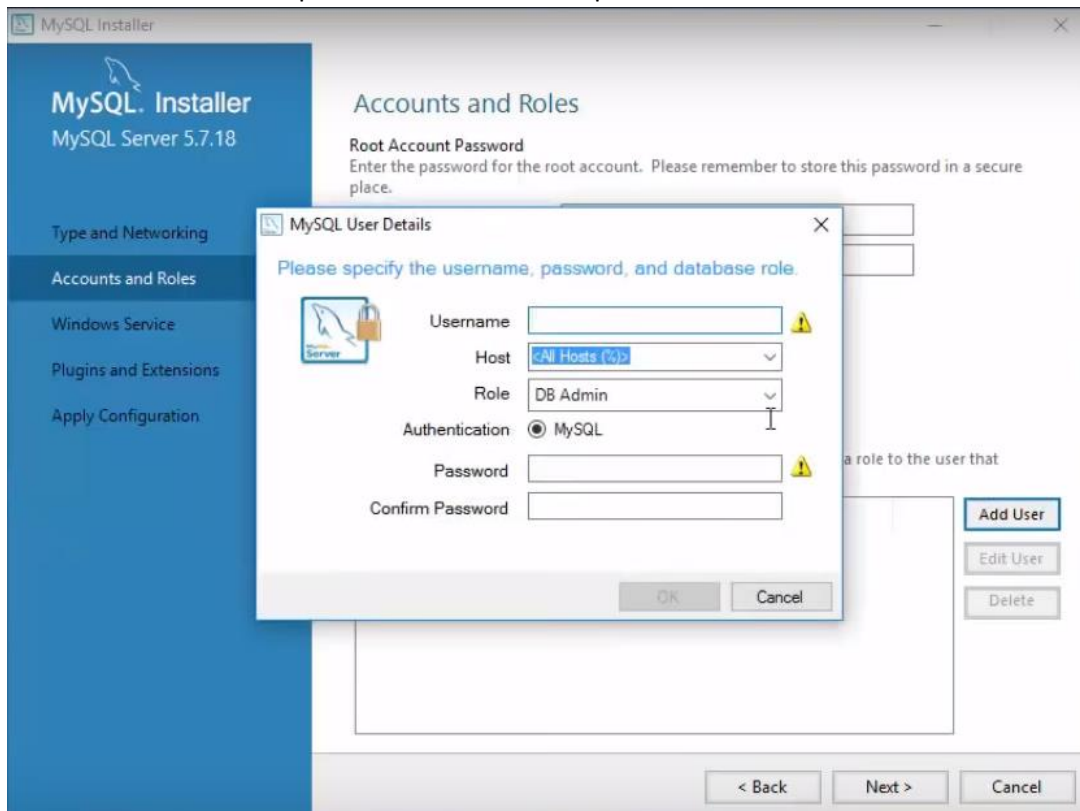

12. Provide a root password and confirm it(don't forget this password”.

The screenshot shows the 'MySQL Installer' window for 'MySQL Server 5.7.18'. The left sidebar has 'Accounts and Roles' selected. The main area is titled 'Accounts and Roles' and contains a 'Root Account Password' section with two input fields: 'MySQL Root Password:' and 'Repeat Password:'. A warning icon is next to the first field, and a note below says 'Password minimum length: 4'. Below this is a 'MySQL User Accounts' section with a table for creating users. The table has columns for 'MySQL Username', 'Host', and 'User Role'. To the right of the table are buttons for 'Add User', 'Edit User', and 'Delete'. At the bottom are '< Back', 'Next >', and 'Cancel' buttons.

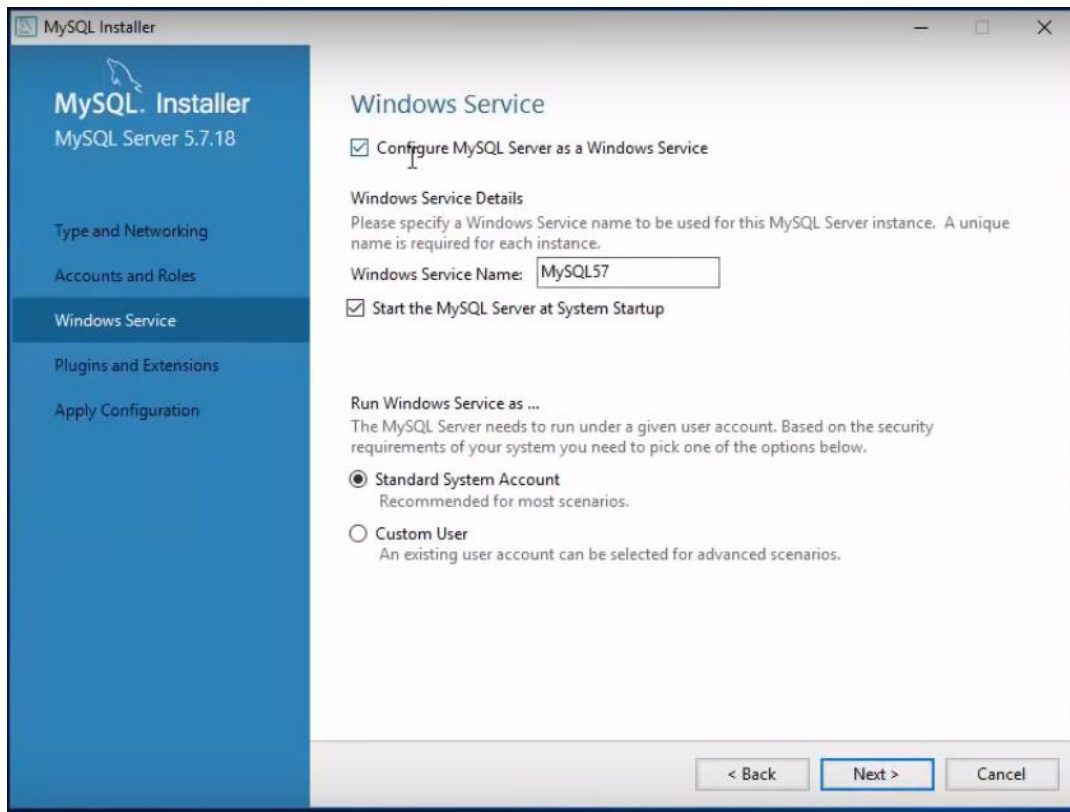

MySQL Username	Host	User Role
----------------	------	-----------

13. Click on “Add User” and provide a username and password and click on “OK”.

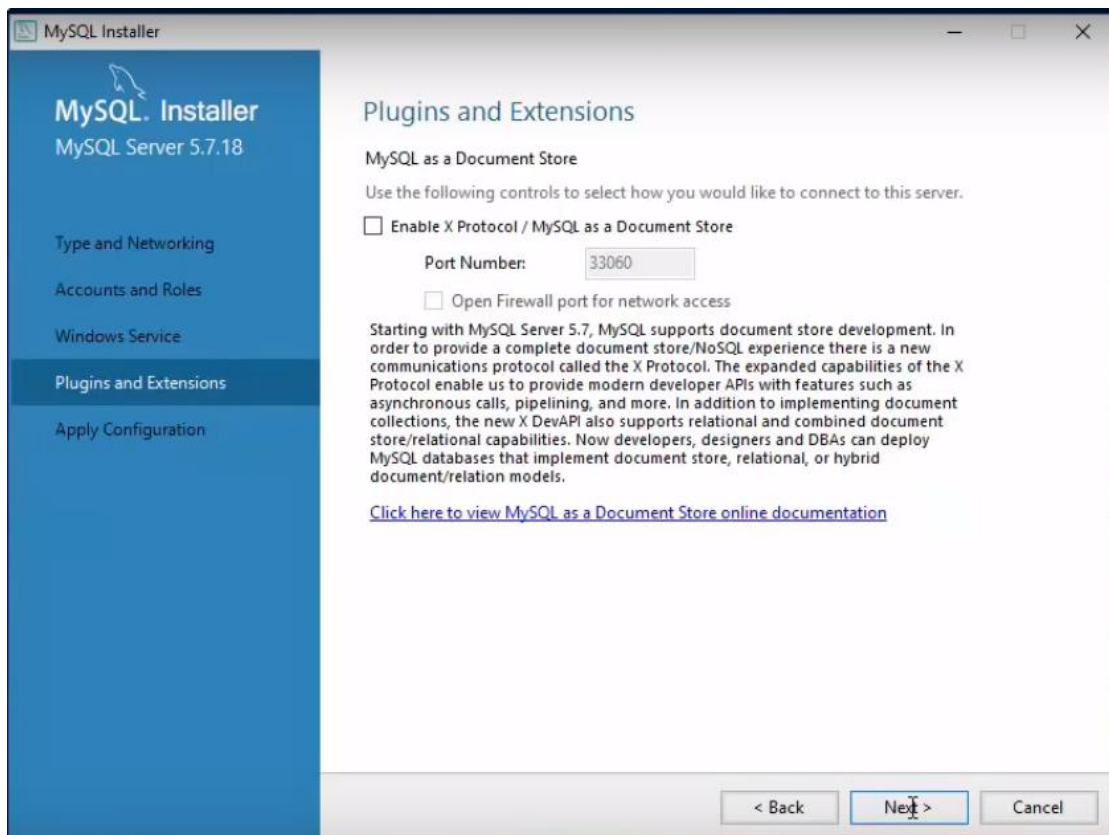

The screenshot shows the same 'MySQL Installer' window, but with the 'MySQL User Details' dialog box open. The dialog has a title bar and a close button. It contains the text 'Please specify the username, password, and database role.' and a MySQL logo. The fields include 'Username' (with a warning icon), 'Host' (a dropdown menu showing '<All Hosts (%>'), 'Role' (a dropdown menu showing 'DB Admin'), 'Authentication' (a radio button selected for 'MySQL'), 'Password' (with a warning icon), and 'Confirm Password'. At the bottom of the dialog are 'OK' and 'Cancel' buttons. In the background, the 'MySQL Installer' window shows the 'Add User' button highlighted in blue.

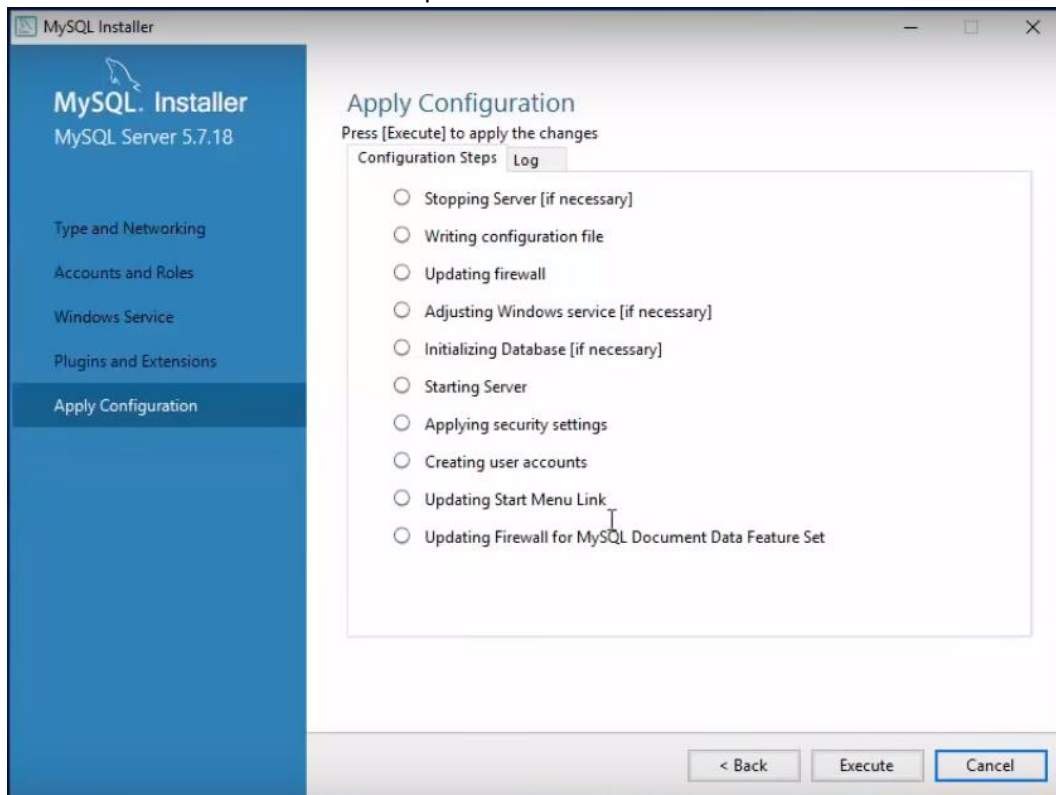

14. Click on “Next”

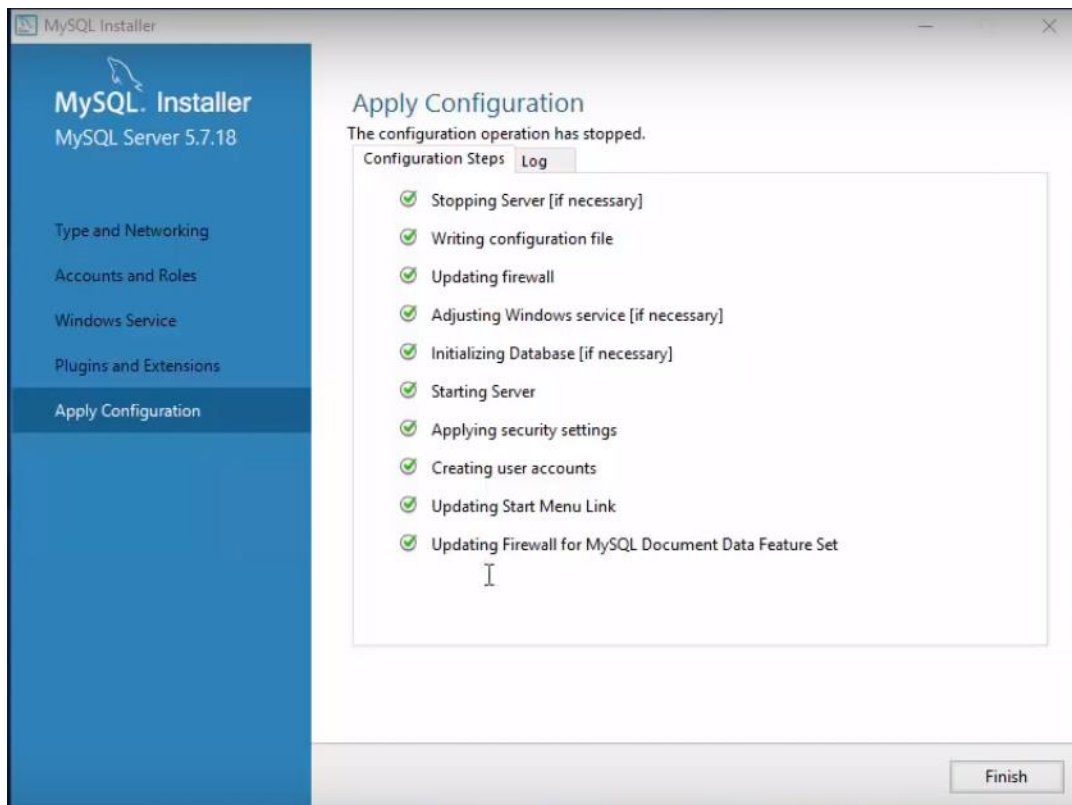

15. Click on “Next”

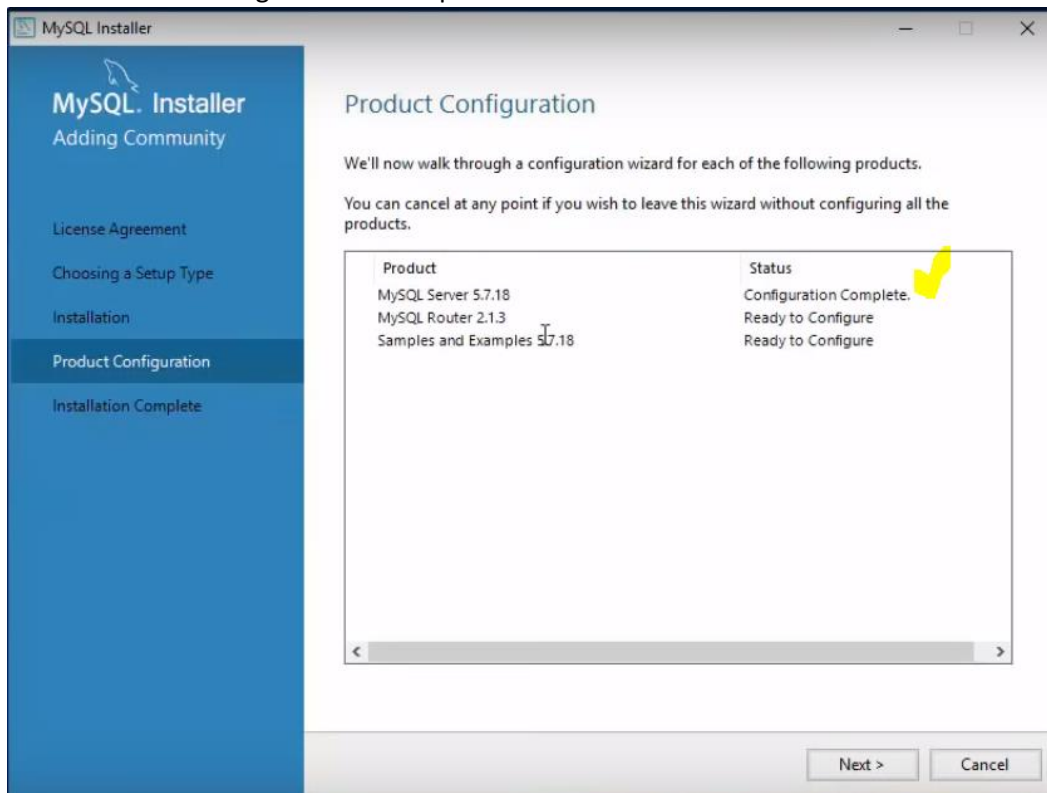

16. Click on “Execute” and wait to complete all the tasks.

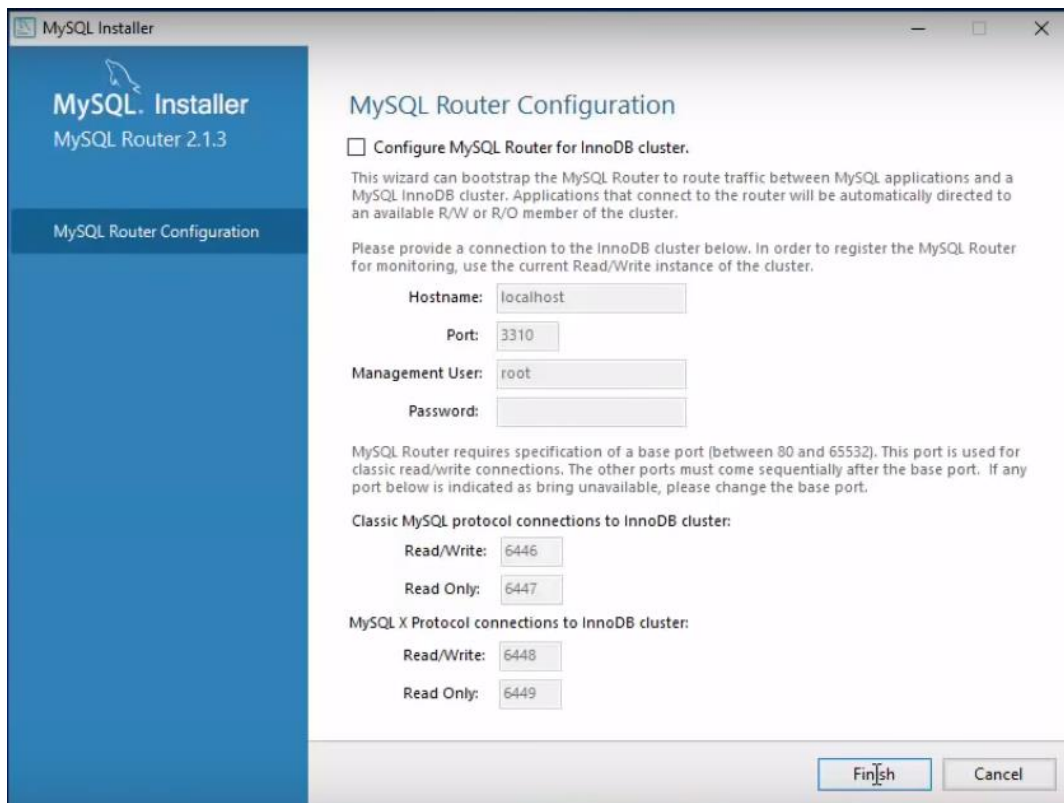

17. Click on “Finish”

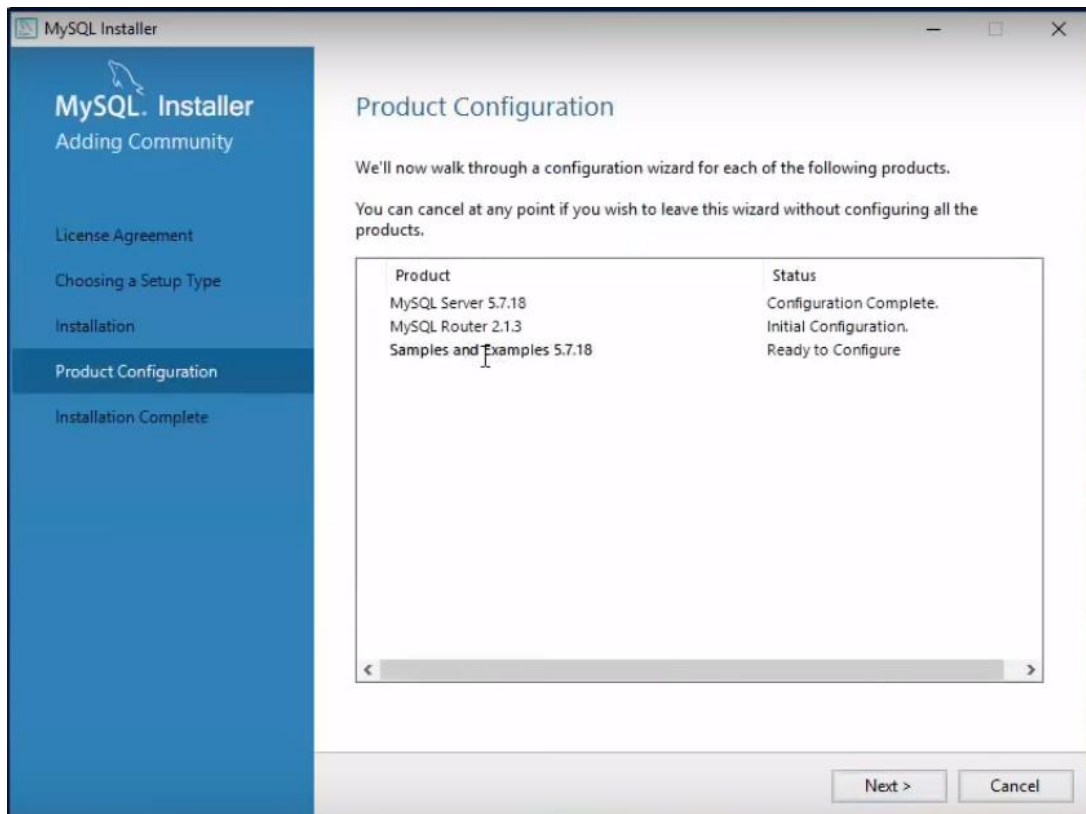

18. Now the server configuration is complete. Click on “Next”

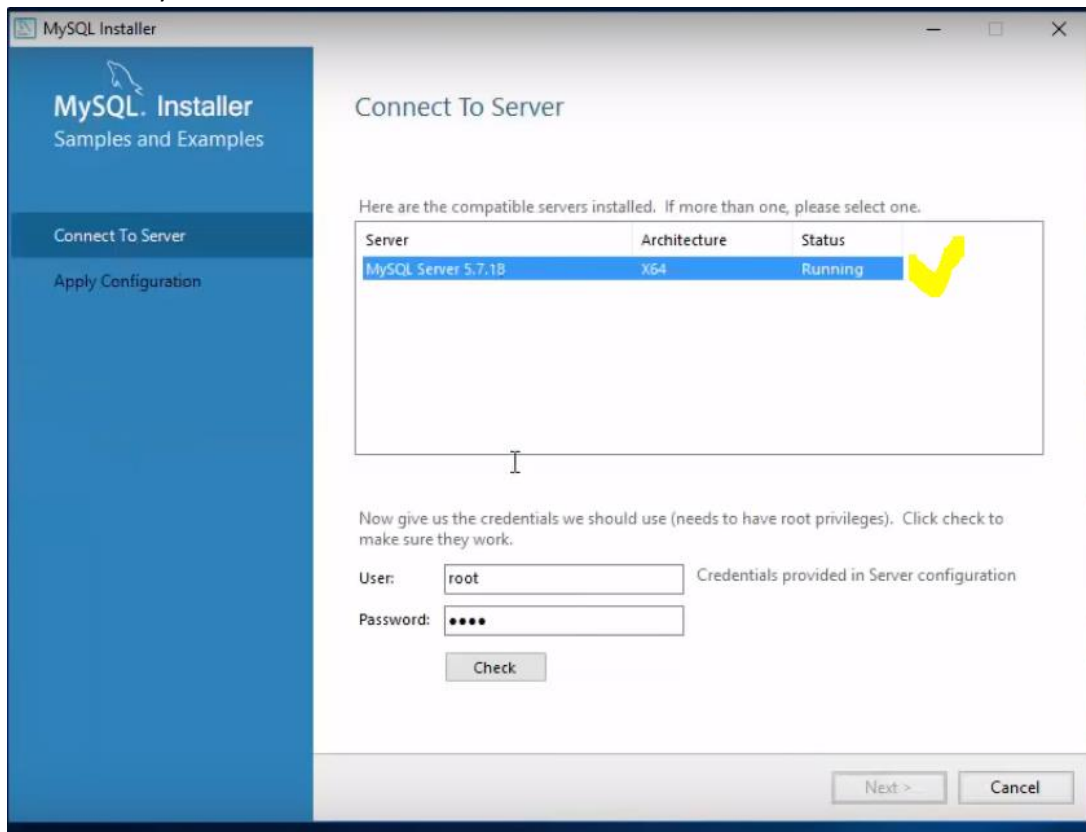

19. Click on “Finish”

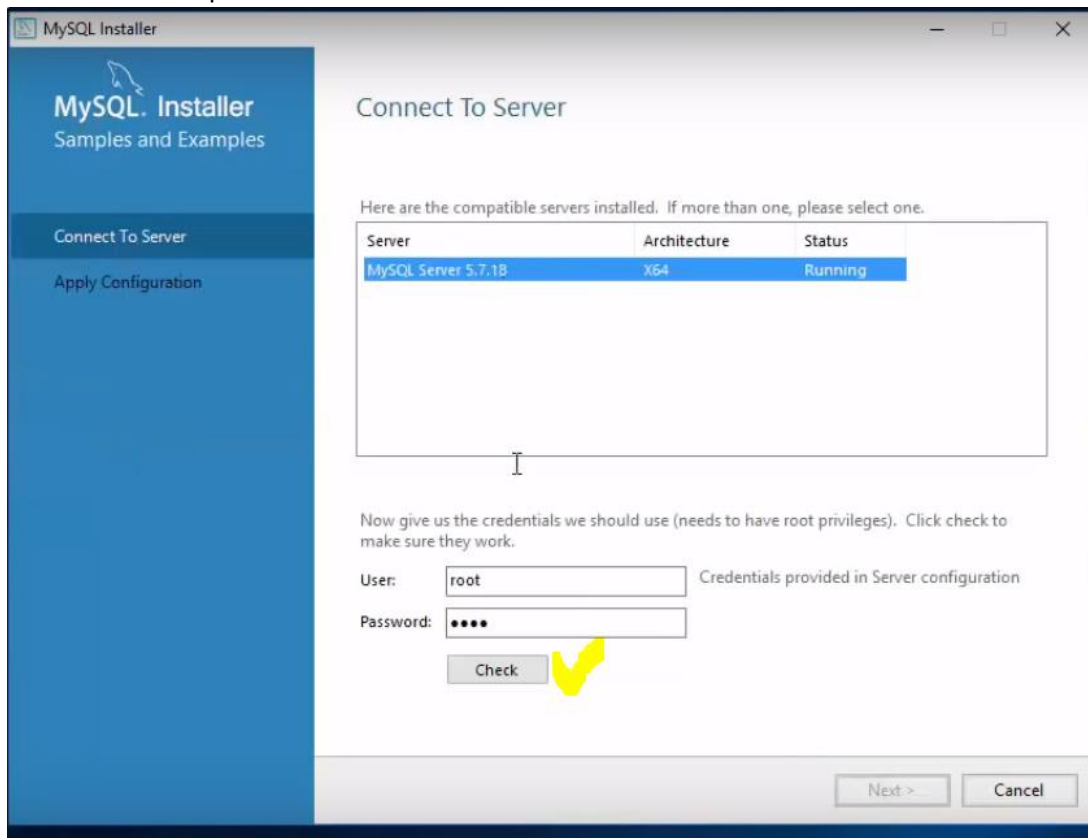

20. Click on "Next"

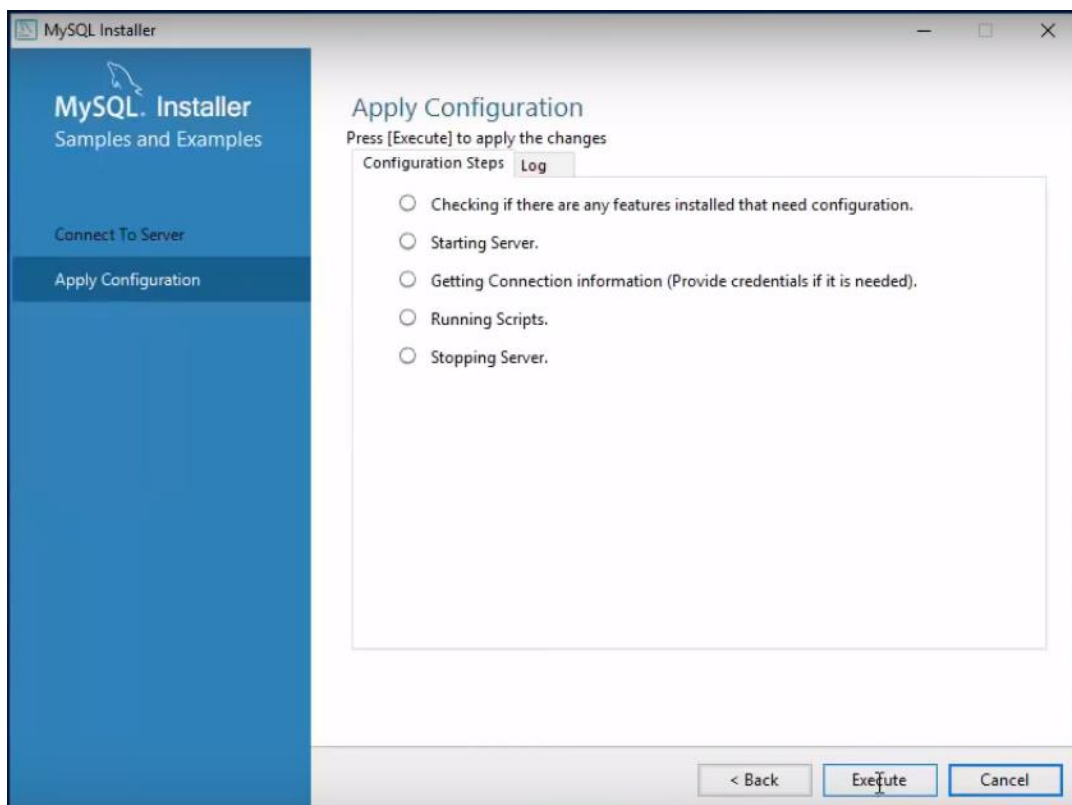

21. Select the MySQL server

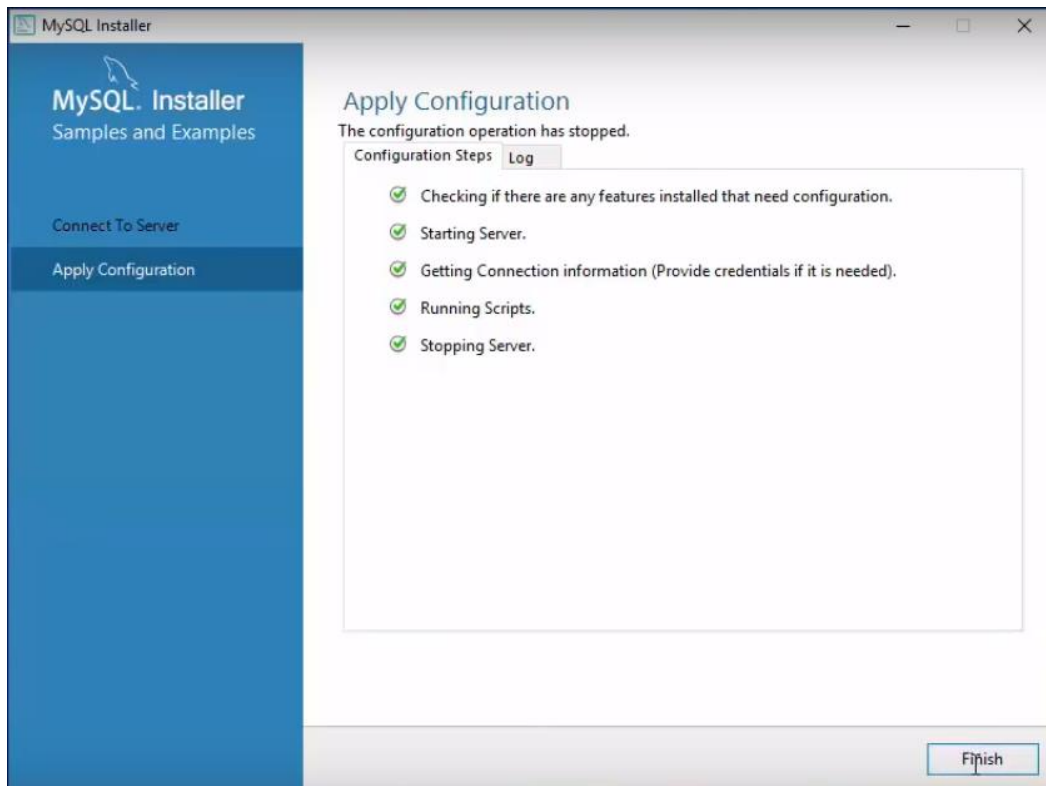

22. Provide the root password created and Click on “Check” Button

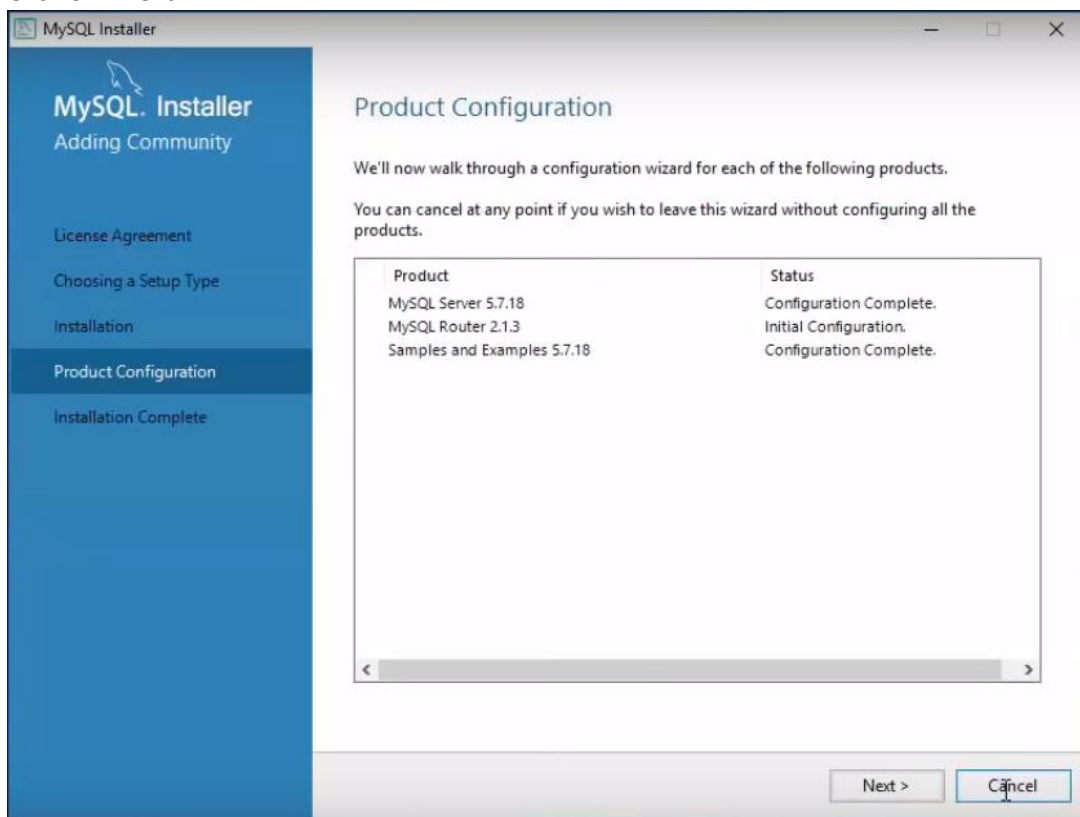

23. Click on “Execute”

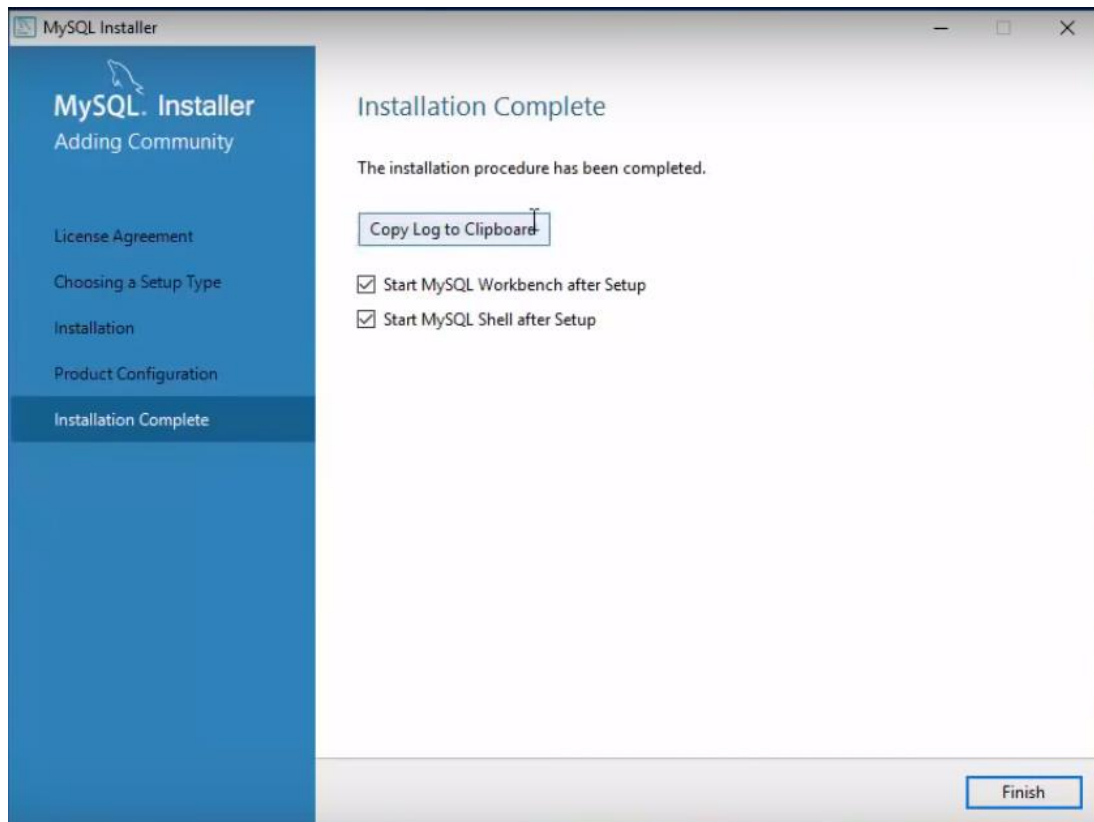

24. Click on “Finish”

25. Click on “Next”

26. Click on “Finish”

27. After Installation search for “mysql Workbench” and open it.

Thank You!!!!
